

AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph starting on page 3, line 9, as follows:

STATEMENT SUMMARY OF THE INVENTION

In a first aspect, the present invention provides a method of simulating a process for use in two different complexities of simulation, the method comprising utilizing a model of the process that comprises at least two portions, a first portion which contains functions for use in both of said different complexities of simulation; and a second portion comprising two alternative versions, a first version for use in one of said different complexities of simulation, and a second version for use in the other of said different complexities of simulation.
